

EFYRA 2nd Event - Conclusions

20 - 22 Mar 2021

Poll results

Table of contents

- What do you think would be needed for young people to stay in rural areas. Define (select) key needs
- What incentive measures do you think are important for keeping young people in rural areas?
- Which political model should be applied in order to revitalize the rural areas?
- Related to the Reproductive revitalization model, do you think it is more important to create a local kindergarten or give constant financial support to young families, as long as they live and work in a rural area?
- Experts have been warning for years about a drastic population decline, especially young people from rural areas. Do you think that the politics should react faster and take action measures to revitalize rural areas?
- What do you think about the statement that the emigration of young people from the country is increasingly costing the country and that it endangers (jopardize) the existing pension and health care system?
- What do you think about the idea of "Rural Zones for Youth" as a place in a rural area where young people would pay lower taxes, receive extra support if they were working in agriculture, live in a rural area and are less than 40 years old.

Table of contents

- Do you think that there are currently enough young people living in rural areas and that only their retention (prevention of migration) would preserve rural areas, or do you think that it is necessary to immigrate young people into rural areas.
- What kind of events do you prefer?
- How satisfied you are with the overall work at the second event?

What do you think would be needed for young people to stay in rural areas. Define (select) key needs

0 3 4

(1/3)

quality communal infrastructure (water supply, sewerage, footpaths, roads)

high speed Internet

kindergarten

library

church

What do you think would be needed for young people to stay in rural areas. Define (select) key needs

0 3 4

(2/3)

theater

cinema

ambulace

pharmacy

supermarket

What do you think would be needed for young people to stay in rural areas. Define (select) key needs

(3/3)

0 3 4

public transport

What incentive measures do you think are important for keeping young people in rural areas?

0 3 4

reduction of taxes in rural areas

housing incentives (co - financed construction materials, interest rate on loans)

direct financial incentives for young people living in rural areas (salary supplement)

Which political model should be applied in order to revitalize the rural areas?

0 3 4

Reproductive revitalization model - (cash bonus for each born child)

18 %

Immigration revitalization model - immigration from other areas, to influence the return of the emigrated population from the home countries, but also to attract the population from overpopulated regions and countries

26 %

Complementary revitalization models: the above models simultaneously.

56 %

0 3 6

Related to the Reproductive revitalization model, do you think it is more important to create a local kindergarten or give constant financial support to young families, as long as they live and work in a rural area?

kindergarten

constant financial support

Experts have been warning for years about a drastic population decline, especially young people from rural areas. Do you think that the politics should react faster and take action measures to revitalize rural areas?

0 3 5

Yes

No

What do you think about the statement that the emigration of young people from the country is increasingly costing the country and that it endangers (jeopardize) the existing pension and health care system?

0 3 8

I believe that this is a very serious problem and that we will feel the consequences more and more in the coming years

I believe that this problem can be solved by increasing taxes and higher allocations from employees' salaries

I believe that this problem of the country can be solved by printing more money

What do you think about the idea of "Rural Zones for Youth" as a place in a rural area where young people would pay lower taxes, receive extra support if they were working in agriculture, live in a rural area and are less than 40 years old.

0 3 8

I support that measure.

I do not support this measure because agriculture is not for young people.

0 3 9

Do you think that there are currently enough young people living in rural areas and that only their retention (prevention of migration) would preserve rural areas, or do you think that it is necessary to immigrate young people into rural areas.

it is necessary to immigrate young people from other regions under the countries

it is necessary to immigrate young people from other countries

it is enough to keep the young people currently living in the rural area

What kind of events do you prefer?

0 3 8

I support more online events like this (Zoom video platform), because they are safer and easier to work with.

 18 %

I support events on site because it is more dynamic and the interaction of participants is greater. Also in this way we get to know more rural areas and project issues.

 82 %

How satisfied you are with the overall work at the second event?

039

Score: 4.6
